How Do I Check the Status of Applied Jobs in easy.jobs?

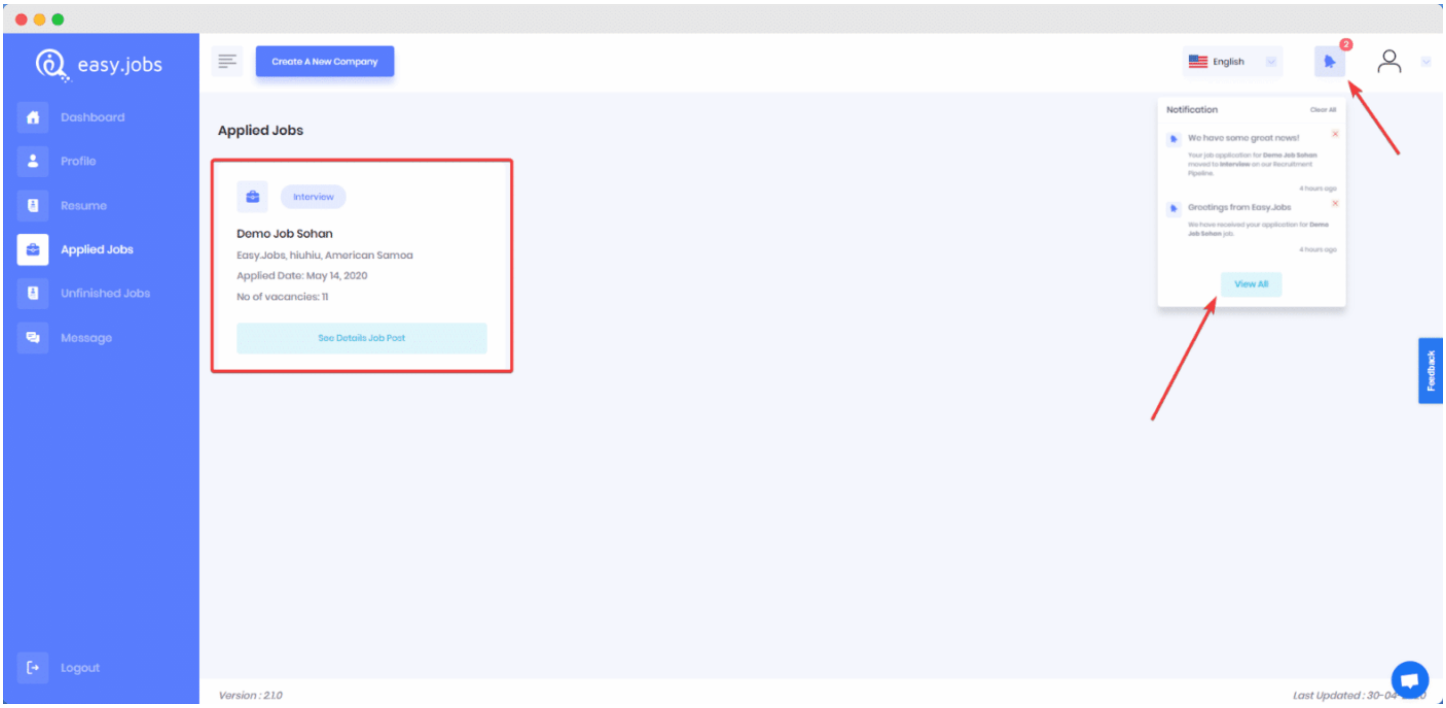

Candidates · https://easy.jobs/docs/status-of-applied-jobs/

Check out the guideline below to learn how to check the **status of applied jobs**.

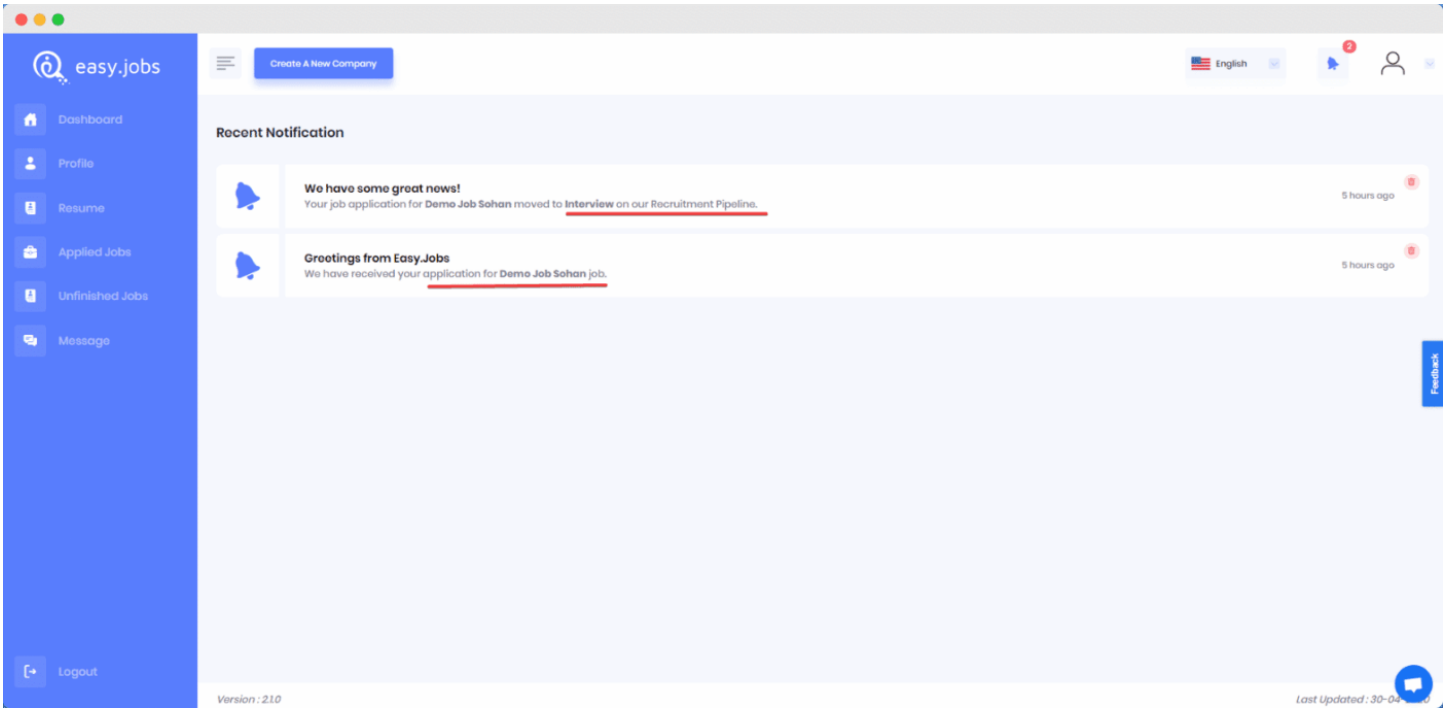

Step 1: Log in to your easy.jobs account. Now click on the **Applied Jobs** from the left sidebar, then you will see the jobs you have applied for earlier.

Step 2: To check the status of the jobs you need to press the bell icon from the right top corner of the page. And then press on the **View All** button from there.

Step 3: It will take you to this view from where you will be able to check the status of your applied jobs. From here, you can see whether the employer received the application or not. It will let you know the exact status of the recruitment process like you are moving on to the next step or not.

This is how you can check the status of your applied jobs. If you need any help, feel free to contact us or join our Facebook community to get connected with other company owners like yourself.
